### STAFF REPORT

**Date:** May 23, 2019

**To:** Prineville City Council

**From:** Lori Ontko, Procurement/Contract Administrator

**Staff Report:** Elm Street Bridge-Construction Contractor Selection

The City of Prineville in conjunction with Anderson Perry accepted bids for the construction portion of the Elm Street Bridge Replacement Project. The work consists of installing a new precast prestressed concrete deck bulb tee girder bridge, it could also include a new pedestrian bridge if the City so chooses.

Work will include but not be limited to, removal of the existing timber bridge, 980' of new steel pipe piling, 117 cubic yards of structural concrete for creek channel improvements, 684' of 36-inch deck bulb tee girders, 175' of ornamental bridge rail with lighting, 4,290 sq. ft. of sidewalks, 1400 tons of aggregate base rock, 600 tons of asphalt concrete pavement (ACP), and work as specified or shown in the drawings.

If the City chooses to install the pedestrian bridge it would include but is not limited to, 148' of steel pipe piling, 18 CY of structural concrete, furnishing and installation of an 80' long pre fabricated weathering steel truss pedestrian bridge with a concrete deck, 120 tons of aggregate base rock, 60 tons of ACP, and other work as specified or shown in the drawings.

This project is being funded by the Oregon Department of Transportation State -Funded Local Project Program. We have a two part bid, base bid and then the bid option price
