Prineville Transportation System Plan Update

Spring 2024

The **Prineville Transportation System Plan (TSP)** is a plan to guide the City's future transportation system. It is a City document that will recommend programs, policies, and physical improvements to all aspects of the transportation system to address current and future transportation needs.

What will the TSP accomplish?

- Improves connections and safety for all people traveling in the City, including those who drive, walk, bike, use a wheelchair or cane, and deliver freight.
- Addresses congestion and safety for all roadway users along U.S. 26 / 3rd Street.
- Sets a 20-year plan for improving transportation to support Prineville's growing population.

What is happening so far?

- Developing draft solutions to address mobility and safety at the "West Y" and O'Neil Hwy / OR 126 intersections.
- Developing draft solutions to address congestion and expand mobility for all travelers on 3rd Street.
- Developing strategies to improve safety at high-crash intersections.
- Proposing expansions of street networks that support people walking, hauling freight, and riding bicycles.
- Conducting traffic analysis to determine how draft solutions might impact future congestion.

Come get involved!

We are hosting an open house and survey to gather feedback on draft solutions for roadways and intersections with safety and congestion issues. Come share your thoughts with City staff!

Where: Golden Coffee Co.

129 NW 4th St, Prineville OR 97754

When: Thurs. May 2, 4:30 - 6:30 pm

An online survey will also be open from April 15 - May 17.

Scan this QR code or use the link below to take the survey!
